ROBERT L. MAITLAND & CO. It is of no sort of conseq en e that General Commission Merchants & three or f ur papers in the South favor the ad It n of negro suffrage as a means of g tt g t 'r section ba k 'nto its old po siti n in the Union. Everywhere, before the late elections, the radicals strongly assured the untry, that, if they should succeed, th path before us would be pla n and smooth. HOME EVIDENCE that everything would be considered as settled and that there would be no don ts. difficulties, or perpl x ties whatever in regard to the future. Well they succeededsucceeded as they say, beyond their ex pectati na. But is anything settled? Is the future clear? Can any one tell what ment a fixed fact? Is it certain or even proba le that the negroes of the South are to vote? Is it any more proba le since the President a impeachment any more likely now than it was two months

The radicals are as much in the dark as to what is to occur as they ever were They are conscions of being "all at sea And they have neither chart nor compass They are wil ly questioning themselves They ask- What will President Jonson G now ? 'What w I the Southern St tes do ? "What we d ? 'Shall w i sist on onstit tional amendment or pla t our e ves apon the ground of " uthern negro suffrage-or what ? Te party's head or rather its heads ar t-rned like that of a man in a wanbrake It doesn't know one point f the compass from another. It can't tell to North Star from a jack-o -lantern.

The radical organs protest that the people of the South have no constitutions right whatever. They swear that me guilty of perj ry, trea n. and r lion an have no shadow of right or claim t take part in any affairs of government But a man, under our Constitution and laws isn't excluded for eri e from the exercise of his old rights until convicte of the crime. Have the Southern people been convicted? Have any of them had trials? Have they even a prospect of

No. And they can't properly be tried for their participation in the rebellion. The National Intelligencer says with truth that the parole of the Southern armies, the repeated protestations of the press, the universal talk of the people. the amnesty proclamation of the Execu tive, all commit this nation against the prosecution of the great mass of the Sonthern people. We agreed not to punish if they would return to their allegiance The abandonment of the purpose to try, to convict, and to punish is a complet reinstalment in their former rights, and radicals violate the national faith in seeking to impose disabilities now that are retroactive in their nature.

Many of the radical leaders strong ly oppose the adjustment of political af fairs upon the basis of impartial suffrage and general amnesty. Upon that point at least, the radical leaders and the conservatives are together.
